

How to Import a Content Pack

What

Content Packs are a great add-on for FileWave to give you fully pre-built solutions that you can use right out of the box.

When/Why

Whenever we want to make use of a content pack to give us a helping hand, we'll need to import the content into our FileWave system.

How

We have an import tool we have developed specially just to make this process simple for you. Check out the short video below that walks you through the import process:
