

Open Source Software included in FW v16.0.1

FileWave is a device management solution that uses a variety of open source libraries and software (OSS) to provide its features and functionality. We believe in the importance of open source software and are committed to giving back to the community. By listing the open source software we use, we hope to make it easier for others to learn about and use these technologies, and to comply with the terms of the licenses for these software packages.

The software below is what is included in: This version (16.0.1) was never released beyond Early Adopters.
