

# Clear Passcode

## What

The Clear Passcode command is used to remove the current passcode that is assigned to a device. (Will not show unless a passcode is set on the device in question)

## When/Why

You can use this command clear that passcode (if set). Particularly useful when the user "forgot" the passcode.

## How

Use the ellipsis ( ) to the right of the device in the [View - Devices](#) and select "Clear Passcode"
