Clear Passcode

What

The Clear Passcode command is used to remove the current passcode that is assigned to a device. (Will not show unless a passcode is set on the device in question)

When/Why

You can use this command clear that passcode (if set). Particularly useful when the user "forgot" the passcode.

How

● ● ●

Use the ellipsis (   ) to the right of the device in the <u>View - Devices</u> and select "Clear Passcode"
