

View - Licenses Overview

What

The Licenses View shows us licensing information for VPP related apps.

When/Why

This is a great view within the WebAdmin to take the temperature of the environment as far as licensing availability for VPP. Policing this view occasionally can help us avoid some of those "surprises" that pop up from time to time.

How

Note that this view gives us excellent summary information on available licenses:

The screenshot shows the FileWave Admin interface with the Licenses Overview page. The page features a sidebar with navigation options and a main table of license data. The table includes columns for Name, Platform, VPP Token, App Store, Purchased, In Use / Available, Price, and Token. Each row represents a different app, and the 'In Use / Available' column uses a progress bar to show the ratio of licenses currently in use to the total number of licenses available for that app.

| Name | Platform | VPP Token | App Store | Purchased | In Use / Available | Price | Token |
|-------------------------------|----------|------------|-----------|-----------|--------------------|-------|---------|
| The Art of War | Book | TK "Local" | en_US | 10 | (2 / 8) | \$ 0 | 1/20/20 |
| The Magna Carta | Book | TK "Local" | en_US | 10 | (1 / 9) | \$ 0 | 1/20/20 |
| Crazy Taxi City Rush | iOS | TK "Local" | en_US | 10 | (0 / 10) | \$ 0 | 1/20/20 |
