

# Viewing Reports

## What

Viewing (Opening) a Report is simply done to see the contents of the report.

## When/Why

From this view, we can see our detailed line items and make conclusions based on what we see. For instance, in the below we might review this report and say to ourselves "We need to update our payloads for Firefox for both Windows and macOS devices:

The screenshot shows the FileWave Admin interface. The top navigation bar includes the FileWave Admin logo, a refresh button, "Model Number: 80", a search bar for devices, and a user profile for TonyK. The left sidebar contains navigation options: Go to Dashboard, Devices, Payloads, Software Updates, Deployments, Sources, Reports (highlighted), and Licenses. The main content area displays a report for "Firefox" with a "Details" button. Below the title, it says "Applications (5)" and "Search list ...". A table lists the applications with columns for Product ID, Name, Version, Size, Install Size, and Is Validated.

Product ID	Name	Version	Size	Install Size	Is Validated
	Mozilla Firefox 52.0.2 (x64 en-...	52.0.2		102 MB	
org.mozilla.firefox	Firefox.app	52.0		183 MB	
org.mozilla.firefox	Firefox.app	64.0.2		140 MB	
org.mozilla.firefox	Firefox.app	79.0		200 MB	
org.mozilla.firefox	Firefox.app	72.0.2			

## How

Actually viewing a report is as simple as clicking on the report name in the list. Alternatively, you can click on "Open Report" from the action menu. Note that when you are viewing a report, you can get to the report definition (and edit from there) by clicking on the Details button highlighted below:

FileWave Admin Model Number: 80 Search for Devices TonyK

Firefox [Details](#)

Applications (5) Search list ...

Product ID	Name	Version	Size	Install Size	Is Validated
	Mozilla Firefox 52.0.2 (x64 en-...	52.0.2		102 MB
