

Comic Life Deployment (macOS Fileset Magic)

Description

A simple way to install Comic Life on macOS and record that it was registered. Ensure that you are properly licensed for the application.

 Last tested with ComicLife 3.5.8

Ingredients

- FW Central / Fileset Magic
- ComicLife app (<http://plasq.com/apps/comiclife/>)

Directions

1. Do Initial Fileset Magic capture
2. Install ComicLife
 - unzip latest version
 - place into application folder
 - drag/import from the application folder
3. Launch ComicLife
 - Accept License
 - Select "Register"
 - Enter Org name
 - Enter Serial Number
4. Close ComicLife
5. Open it again
 - This time it will ask about automatic updates and "staying in touch", I like to turn them off
6. Close ComicLife again
7. Do second Fileset Magic scan (capturing changes)
 - Make sure to move items to all users
