

# VPP Token Revoked Error

## Problem

"VPP token is Revoked" error is displayed in the FileWave Admin> Dashboard or when trying to run a manual VPP sync in the "VPP and DEP" tab of FileWave Admin preferences. This can be caused if you try to enter the same VPP token in Apple Configurator.

## Solution

The solution for this error is to renew your VPP token in FileWave. For renewing your VPP token we offer the below Knowledge Base article for this process.

[Renew Your VPP Token](#)
