

VPP Token Revoked Error

Problem

"VPP token is Revoked" error is displayed in the FileWave Admin> Dashboard or when trying to run a manual VPP sync in the "VPP and DEP" tab of FileWave Admin preferences. This can be caused if you try to enter the same VPP token in Apple Configurator.

Solution

The solution for this error is to renew your VPP token in FileWave. For renewing your VPP token we offer the below Knowledge Base article for this process.
