

View - Software Updates

What

The Software Updates view shows us all patches that have been discovered as "needed" in the environment.

When/Why

An important part of device lifecycle management is patching and updating systems. This view will allow you to see the available software updates that Microsoft, Apple, and others have provided

How

As your environment lives and breathes over time, this list will continue to change, example below:

Name	Size	Platform	Critical	Automatic	Unassigned	Assigned	Successful
WiFiPowerPlanConfigData	984 KB	macOS	No	No	2	0	0/0/0
macOS Catalina 10.15.6 U...	2.77 GB	macOS	No	No	0	1	0/1/0
2020-08 Cumulative Update...	401 MB	Windows	Yes	No	1	0	0/0/0
2020-07 Cumulative Update...	71.4 MB	Windows	Yes	No	1	0	0/0/0
macOS Catalina 10.15.6 U...	2.81 GB	macOS	No	No	1	0	0/0/0
Photo13.8.1	228 MB	macOS	No	No	1	0	0/0/0
2020-08 Servicing Stack U...	14.3 MB	Windows	Yes	No	1	0	0/0/0
WiFiPowerPlanConfigData	984 KB	macOS	No	No	1	0	0/0/0
2020-07 Servicing Stack U...	14.2 MB	Windows	Yes	No	1	0	0/0/0
macOS Catalina 10.15.5 U...	4.45 GB	macOS	No	No	1	0	0/0/0
macOS Catalina 10.15.6 U...	4.45 GB	macOS	No	No	1	0	0/0/0
macOS 10.15.0 Update	4.45 GB	macOS	No	No	1	0	0/0/0
WiFiConfigData	4.07 MB	macOS	No	No	2	0	0/0/0
2020-08 Cumulative Update...	75.6 MB	Windows	Yes	No	1	0	0/0/0
2020-07 Cumulative Update...	384 MB	Windows	Yes	No	1	0	0/0/0

Click on any update's name to see status and manually install on individual devices

click on the ellipsis () to auto deploy for all devices.
